The Prince of Wales and the London Beauty-The Heir of the British Throne Beckless of his Reputation,

London, September 6.—I have it on the very best authority that the husband of the famous London beauty, Mrs. Langtry, has commenced proceedings for divorce, and that the Prince of Wales is set down as the correspondent. My informant declared he had seen the preliminary papers necessary to the first legal steps in such a suit. Now, without for a moment desiring to make the case worse than it is, of casting any more reflection

THE SOCIETY PAPERS

note the royal doings at and off Partmouth:
"His royal highness takes it all very quietly, living chiefly with his hands in the pockets of his blue yachting suit. The maidens of Dartmouth are dreadfully jealous of the pretty Mrs. Wheeler, and those who affect the seas are beginning to show that they can be guilty of the sincerest flattery. The wonderful cos-tume in which Mrs. Wheeler yachts, and when she condescends to go ashore, walks, has already become a tradition of the Dart-mouth boudoir, and a subject of discussion in the baths of Torquay," Mr. Wheeler ac-companies his wife, and probably if he were to take a turn through the baths incognito he would be very much astonished, not to say indignant, at the way in which certain ladies who bask in the smiles of the English prince are spoken of. Heaven forbid that I should traduce the fair fame of any woman, beautiful or homely, and I believe Mr. Wheeler is

a worthy gentleman and held in high es-teem. But "Wales is A DEVIL-OF-A-FELLOW, you know," they say who do know, "though one of the jolliest in the world," and when newspapers in their chronicles say that kind of thing—"Mrs. Wheeler really must be careful; the sun and sea air are beginning to tell in a really fearful manner"—one arrives at the conclusion that madame has come to be regarded as an established "professional beauty" with her husband's consent. If this is not the case, he should take means to newspapers in their chronicles say that kind this is not the case, he should take means to warn the fashionable reporters that he does not sanction or tolerate the sort of advertisplated to take up a subscription among the seen with the Prince of Wales without scan-dal wagging its tongue against the lady; but the husband should surely resent invitations to parties of pleasure upon which the Prin-cess of Wales does not smile her personal approval. The prince is not more to blame than the misguided married ladies who are honored with his patronage, for he reads the newspapers and must know what is thought and said about society belles who go yachting resorts when he does, and who are invited to semi-swell houses to meet him at aristocratic parties where the princess does not come. If all this sort of business is innocent; if it is merely a pleasant interchange of social cour-tesies, then the prince is damaging the repu-tation of respectable men and beautiful women; and what is of more concern to

exercise his privilege of cross-examination. The painful incident of the heir to the throne being cited to deny on oath that he had outfriendly relations, was one which greatly afflicted the national conscience. The press at the time took a firm, if kindly and loyal tone in regard to the affair, arguing, if I remember rightly, that it is not enough for a prince of Wales in these days to be an example of man-liness, not even enough to be pure and noble, but he must, like Cæsar's wife, be above suspicion, and that any serious fall from this high estate must have grave and serious con-sequences. The whole nation was depressed "Little Sandy" was discovered lying under a manger in the sheep barn, his throat cut from ear to ear, and head nearly severed. He was entirely disemboweled, his arms tied behind him, feet securely bound, and from the situation it was evident that the mander in the secure well-known that he was included among the men charged with improper visits to the unhappy daughter of the Moncrieffs, and a load was lifted off the public mind when he solemnly, bible in his hand, declared himself innocent of the offense.

Rich Old Lady Leaves a Fortune in

Lexington (Ky.) special to the Louisville Courier-Journal, 23d: "A week ago an old lady named Mrs. Maslin Smith died in this city. She was quite wealthy, and left her property in devises to a few relations, who are themselves rich. Her executor, Mr. John B. Payne, with an assistant, has been rummaging through old trunks and boxes on which the dust of years has lain undisturbed. Jp to this time their search has been rewarded by the discovery of about eleven thousand dollars in coin, hidden in their ancient receptacles, and probably forgotten by herself.

The old lady was very close, and although in the last six or eight years of her life she was bed-ridden she still clung with tenacity to feether estate, taken out after his death by plated to take up a subscription among the beneficiaries of the will for the benefit of grace to society.
